

“...What was the strategy of the abortion industry early on? How can knowing that strategy provide the key to changing abortion law and abortion culture? Terry Beatley has written a powerful book which answers those questions. Get What If We've Been Wrong?, read it, and tell others about it.”

“Where is the Church?”

What the Father of America’s Abortion Industry Wanted Every Pastor and Christian to Know

In **1969**, Dr. Bernard N. Nathanson implemented a deceptive, 8-point propaganda campaign to deceive elected officials, judges and the American public —particularly Christians— about the issue of abortion.

In **1970**, Dr. Nathanson implored Planned Parenthood to enter the abortion business.

In **1971-1972**, Dr. Nathanson trained Planned Parenthood’s doctors.

In **1973**, just a few months after celebrating the *Roe v Wade* decision, something happened to change the Father of America’s Abortion Industry’s mind about abortion.

In **2009**, 83-year-old Dr. Nathanson instructed Terry Beatley to teach pastors and their flocks the truth of how he stripped the unborn child of all rights and protections. In addition, he gave Terry his Christ-centered message to deliver across America to awaken the Christians from apathy, deception, and complicit complacency. Terry promised Dr. Nathanson she would make his message common knowledge.

In 2017, Terry will use the skill of historical story-telling to “bring healing truth to a broken world.”
