PETITION TO THE SUPREME COURT OF KANSAS

The Kansas State Constitution guarantees the "right to life, liberty and the pursuit of happiness." When adopted in 1859, it did not state, nor intend to create, a "right" to abortion. In fact, in that same year, just before and after the adoption of the Kansas Constitution, our legislature passed laws making it a crime to kill an unborn child by abortion.

We, the undersigned citizens, object to the recent interpretation by certain Kansas judges that a broad and extreme right to abortion should be "read into" our constitution — and further protest that such a judicial opinion authorizes the inhumane dismemberment of fully formed unborn babies while they are still alive. We, the undersigned, urge the Kansas Supreme Court to interpret the Kansas Constitution to protect the Right to Life.
